## EDUCATION

| Degree/Certificate | Institution                                    | Percentage/CGPA | Year |
|--------------------|------------------------------------------------|-----------------|------|
| B.Tech (CSE)       | Computer Science and Engineering IIIT Vadodara | 7.43            | 2026 |
| CBSE (XII)         | Macro Vision Academy                           | 83.20%          | 2022 |
| SSC (X)            | Vidya Vikas Vidyalaya                          | 93.20%          | 2020 |

## TECHNICAL SKILLS

- **Languages:** Java, JavaScript, SQL
- **Frontend:** React.js, HTML, Tailwind CSS
- **Core:** DSA, OOP, DBMS, OS
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB, MySQL
- **Tools & DevOps:** Git, Docker, CI/CD, BullMQ, Socket.IO, WebRTC, Prisma

## WORK EXPERIENCE

### Software Developer Intern

Jun 2025 – Jul 2025

Bluestock Fintech

- Delivered reusable **React** components used across **10+ UI modules**, reducing redundant development effort, and integrated **REST APIs** across **5+ modules**, cutting data fetch time.
- Implemented **JWT** and **Google OAuth 2.0** across **8+ protected endpoints**, eliminating unauthorized access vectors.
- Optimized **REST API** calls via request deduplication and **response caching**, reducing server round-trip **latency across high-frequency endpoints**.

## PROJECTS

### PeerCode – Collaborative Coding & Mock Interview Platform 🐙 🌐

Jan 2026 – Mar 2026

Node.js, Express.js, React 18, MongoDB, Socket.IO, WebRTC, Yjs CRDT, Google Gemini, Judge0, Razorpay, Docker, CI/CD, Google OAuth, Tailwind CSS

- Developed a **LeetCode-style coding & interview platform: Yjs CRDT** over **Socket.IO** (zero server-side state), **WebRTC P2P** video with **replaceTrack()** screen sharing, and a **Redis adapter** for horizontal scaling.
- **Engineered ELO peer matching** ( $K=32$ ,  $\pm 200$  window, role/topic filters) with a **global leaderboard** and **session replay** (line-level diffs); created an **Admin Panel** for problem CRUD and report resolution.
- Built an **AI Voice Interview mode (Web Speech API + Gemini)** generating DSA questions with structured hire verdicts; delivered async **AI debriefs** via **Agenda** using a **7-key Gemini pool** with **429 failover**.
- Implemented **7-language Judge0 CE** execution with a test harness; added **OTP** and **Google OAuth** login secured by **JWT tokenVersion rotation**; integrated **Razorpay** 4-tier billing with **HMAC-SHA256** webhook verification.

### FlowShield – Webhook API Protection 🐙 🌐

May 2025 – Jul 2025

Node.js, Express.js, MongoDB, React, Redis, BullMQ, Socket.io, Zustand, Tailwind CSS

- **Engineered a fault-tolerant webhook pipeline** with **exponential backoff** retry and a **Dead Letter Queue**, achieving **zero payload loss** under concurrent traffic.
- Reduced latency to **<10ms** using **Redis** and **BullMQ** for async processing, and developed a **real-time monitoring** dashboard using **Socket.io** and **Zustand** with **<100ms** updates and zero polling.
- **Secured the platform** with **JWT authentication**, **API key validation**, and **rate limiting** (100 req/15 min).

## ACHIEVEMENTS

🏆 **Knight** on LeetCode (Max Rating: **1972**)

✅ Solved **800+** DSA problems

🏆 Global Rank **659** in LeetCode Biweekly Contest 184

🏆 Global Rank **883** in LeetCode Biweekly Contest 178

🏆 Global Rank **132** in CodeChef Starters 215 (Div 2)

★ **4-Star** Coder on CodeChef

★ **4-Star** Coder on GeeksforGeeks

🏆 Global Rank **1709** in LeetCode Weekly Contest 505

🏆 Global Rank **513** in LeetCode Weekly Contest 493

🏆 Global Rank **157** in CodeChef Starters 216 (Div 2)
